

SANTA FE

El Capitan

READY TO ROLL would like to offer you the opportunity to get one of the ultimate HO-scale passenger trains of all time. WALTHERS is producing the SANTA FE “*El Capitan*” as their next “named” train. Similar to their previous offerings, they will be making the individual cars one at a time, shipping them about a month apart. We will charge your credit card when they come in, but ship them to you in three installments so you are not getting “nickel-and-dimed” to death for shipping charges. We can also wait until the complete set has been issued and send it to you then for a low fee of only \$12.50. I believe this is the first time in HO-scale that these cars have been done other than in brass. The matching engines, in the same real metal finish simulating stainless steel, are also available to pre-order or you could choose selections from other manufacturers

SPECIAL PACKAGE \$699.99

All eight different cars 9730,9740,9750,9760,9761,9770,9780,9790
